Nevada Launches Employment Services Mobile App

The Employment Security Division (ESD) of the Nevada Department of Employment, Training and Rehabilitation (DETR) is proud to announce the successful launch of the EmployNV mobile phone application. The site can now be downloaded for free on both Android and Apple phones on Google and Apple application stores respectively.

EmployNV is the state's online job resource where jobseekers can find local and statewide employment information.

“DETR and JobConnect continue to look for ways to improve service to the public, and having this app will put Nevada's employment and job search services right at our customers' fingertips, 24 hours a day, seven days a week with no waiting,” Lynda Parven, ESD Deputy Administrator said.

There are no costs or fees to use EmployNV, which provides comprehensive services in a user-friendly online experience. To access the new EmployNV, visit www.EmployNV.gov. Users may also gain access to the site through DETR's website and the Nevada JobConnect website at www.nevadajobconnect.com and www.nvdetr.org.

Conveniences of the mobile app mirror the job search functions of the website and include:

- Online access to employment services anytime
- Career tools to help users effectively find jobs that match their skills and interests
- Unduplicated job postings from across the Internet

“We are very pleased to be able to have our mobile app up and running and encourage everyone to explore the app as well as EmployNV.gov,” Parven added.

For more information, contact Lynda Parven, Deputy Administrator, Employment Security Division at 702-486-6632 or via email at l-parven@nvdetr.org.
