Click on "State Training Series"

We are pleased to introduce an on-line training series that enhances individual and organizational capacity to serve individuals with disabilities effectively. eRehab.

The training programs comprising the eRehab series are informative, easy to use, valuable training tools offered to vocational rehabilitation agencies and their community partners. The eRehab programs consists of a National Training Series and a State Training Series, each offered in a self-paced on-line learning format. The information in each module is presented in a narrative format with a variety of multimedia features designed to enhance learning.

#### National Training Series

- State Rehabilitation Council (SRC) Training
