Date of submission: _____

Nominee: _____

Organization: _____

Work Address: _____

Work Phone: _____

Nominated by: _____

Organization: _____

Work Address _____

Work Phone: _____

Documentation:

1. A narrative describing why the individual, office, or organization is being nominated to include what was achieved and the benefits to the United States Veterans or military personnel.
2. Attach any letters or written communication received from a United States Veteran, private individual, company, or agency, which commends the individual, office or organization being nominated and the outstanding service or action provided.
3. Specific documentation to support the benefit to the individual or group listed under number 1.

4. When using individual success story examples, please specifically identify that the client is a United States Veteran.

Questions:

1. **How much impact did the actions by the nominee:** Have on the Veterans' community either by creating or improving an existing program involved with services to individual Veterans or the Veterans' community? The effect may be felt even though the impact may not be directly measurable.

2. **How much impact did the actions by the nominee:** Have on the Veterans' community, by increasing employer or outreach/community-relations efforts that promoted awareness of Veterans issues within the employer community, or the development of new partnerships with employers or organizations that directly benefits Veterans?

3. **How much impact did the actions by the nominee:** Have on individual Veterans and the Veterans' community as a result of exceptional performance beyond job requirements or outside of established performance goals?

4. **How much impact did individual and/or group case management activity provided by the nominee:** Have on an individual Veteran, groups of Veterans and/or hard-to-place populations (homeless, disabled, offenders etc.)?

5. **How much impact did the actions by the nominee:** Have on the Veterans' community by creating a collaborative success of individuals comprised of an area, office, or unit that provides services to Veterans or by the enhancement of on-the-job training, customized job training, or compensated work therapy for Veterans?

6. **How much impact did the actions by the nominee:** Have on the Veterans' community by the development of innovative or "Outside of the Box" thinking? These innovative or out of the box actions are clearly above and beyond the normal job duties of the nominee's position. This could be the development of a new program that enriches the lives of Veterans, a new service, or even the development of new resources that make a direct improvement in the lives of Veterans or their employment opportunities.
